PERSONAL SUMMARY

Detail-oriented and innovative Software Developer with extensive experience seeking a development position. Known for a positive outlook, I possess a proven ability to learn and adapt to new technologies quickly, with a genuine passion for development. Dedicated team player, eager to contribute to the success of the company through support and enthusiasm.

SKILLS

- **LANGUAGES:** TypeScript, JavaScript, HTML, CSS, PHP, Python
- **FRAMEWORKS, LIBRARIES, AND ENVIRONMENTS:** Vue, NuxtJS, React, NodeJS, Express, Bootstrap, SASS
- **TESTING:** Cypress, Storybook, Jest, Mocha
- **SYSTEM AND DATABASES:** MySQL, PostgreSQL, MongoDB, Git, Github

PROFESSIONAL EXPERIENCE

Junior Software Developer, Jan 2023 - Dec 2023
MintList Technologies Inc – Vancouver, BC

- Spearheaded development efforts for critical applications, utilizing TypeScript with Vue.js/Nuxt.js, React frameworks, and Golang to ensure seamless integration and smooth user experiences.
- Played a pivotal role in translating feature specifications into actionable development plans, advising on technical feasibility and proposing solutions.
- Led the enhancement of user profile and dashboard experiences for a digital auto marketplace, resulting in improved interface intuitiveness and increased user engagement.
- Contributed to the design and development of user-friendly search interfaces, implementing algorithms to enhance search accuracy and efficiency.
- Demonstrated commitment to delivering high-quality, user-centric solutions and fostered collaboration across cross-functional teams.

EDUCATION

Diploma: Full-Stack Web Development, July 2022
Lighthouse Labs - Vancouver, BC

Associate's Degree: Applied Web Development, Dec 2021
British Columbia Institute of Technology - Vancouver, BC

- Final Grade: 90%

PROJECTS
